

## COUNTER DISPLAY

By ordering the assortment of spicy fruit gels, you can receive the counter display as a gift. Each display is handmade with second-life chestnut wood and plexiglass. On request, each display can be customized according to the customer's needs.

LAFRUTTA

EVERYTHING OF  
FRUIT IS GOOD FRUIT

Our company is dedicated to the craftsmanship of fruit and vegetables by applying a circular vision. In addition to implementing transformation processes that respect and enhance the quality of the raw material, we are committed to constant research, which allows us to create innovative products, capable of giving new value to the by-products of traditional processes, which are normally considered "waste".

## FRUIT SPICY GELS

The spicy fruit gels are a sweet and sour condiment made from the gelling of the syrups derived from the processing of our artisan candied fruit. These sweet and spicy condiments fully express the aroma of the fruit or vegetable of origin and can be used as an accompaniment to cheeses, cured meats, grilled meats and fish, cooked or raw vegetables and as a garnish for first courses.

### FRUIT GELS 40 G

The single-dose format, dedicated to resale and administration activities, allows the end customer to choose multiple gel flavors to experiment with different combinations.

### FRUIT GELS 220 G

Available on request, this format is designed for professionals who wish to use gels in their dishes or serve the product in portion sizes.
