

# Maddalena

— as my grandmother made me —

## Once upon a time there was Maddalena

The farm of Patrizia Onesti was born to bring on the table the Maddalena's recipes, a special grandmother who already in the 1940's used to grow fruit and vegetable in the family farmhouse called "Cà di Carassa" on the Canelli's hills (Piedmont- Italy).

All began in the forties, with a small planting of artichokes which Nonna Maddalena used to grow next to the vineyards, a hobby that soon became a job involving also the cuisine. Maddalena started to sell her specialties and, as lover of the cuisine, started as well to experiment with delicious new recipes. Her recipes soon become part of the family tradition and once she passed away, her son Dario kept the tradition on. Finally in 2018 thanks Patrizia, the daughter in law of Dario, was born "Maddalena" the preserved in oil line, jams and traditional appetizer inspired by grandma's recipes.

Between tradition, simplicity and a pinch of imagination, in Maddalena you will find only fruit and vegetables from our garden, with first choice raw materials.

# OUR PRODUCTS

- Specialties
- Preserves in oil
- Bruschette
- Traditional jams
- Modern jams
- Grape mustards
- Sauces

# Specialties
