THE ORIGIN

The Maddalena farm was founded to bring to the table the recipes of Maddalena, a special grandmother who, as early as the 1940s, was growing fruits and vegetables at the Cà di Carassa farmhouse, nestled in the hills of Canelli.

It all started with a small crop of artichokes that, over the years, turned into a true business: Maddalena began selling her produce and, being a passionate cook, used it to experiment with new dishes. Her recipes became part of the family tradition, lovingly carried on by her son Dario even after her passing. Thus, in 2018, Maddalena was born—a line of preserved vegetables in oil, fruit compotes, and jams inspired by grandma's recipes. Between tradition, simplicity, and a pinch of creativity, Maddalena offers only high-quality fruits and vegetables.
